NOTICE OF NON-COMPLIANT RESPONSE (37 CFR 1.111)

1. The reply filed on September 12, 2005 is not fully responsive to the prior Office Action because Applicant fails to fully respond to the double patenting rejection set forth in the previous office actions.

37 CFR 1.111(b) requires that: "In order to be entitled to reconsideration or further examination, the applicant or patent owner must reply to the Office action. The reply by the applicant or patent owner must be reduced to a writing which distinctly and specifically points out the supposed errors in the examiner's action and must reply to every ground of objection and rejection in the prior Office action. The reply must present arguments pointing out the specific distinctions believed to render the claims, including any newly presented claims, patentable over any applied references. If the reply is with respect to an application, a request may be made that objections or requirements as to form not necessary to further consideration of the claims be held in abeyance until allowable subject matter is indicated. The applicant's or patent owner's reply must appear throughout to be a bona fide attempt to advance the application or the reexamination proceeding to final action. A general allegation that the claims define a patentable invention without specifically pointing out how the language of the claims patentably distinguishes them from the references does not comply with the requirements of this section." (emphases added).

In the instant case, Applicant twice requested the provisional double patenting rejection be held in abeyance without agreeing with the examiner's action or making any argument. In the latest response, Applicant specifically stated that "Applicants do not

concede” that the examiner’s action is correct (see footnote 1). Nevertheless, Applicant once again fails to distinctly and specifically points out the supposed errors in the examiner's rejection. The double patenting is neither an objection nor a form requirement. It’s a substantive rejection; therefore, it cannot be held in abeyance.* Because Applicant twice fails to reply to every ground of objection and rejection in the prior Office actions, namely the double patenting rejection, as required under 37 CFR 1.111, Applicant’s response is hereby held non-responsive.

2. Since the period for reply set forth in the prior Office action has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a).

The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. In no case may an applicant reply outside the SIX (6) MONTH statutory period or obtain an extension for more than FIVE (5) MONTHS beyond the date for reply set forth in an Office action. A fully responsive reply must be timely filed to avoid abandonment of this application.

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to H. T. Le whose telephone number is 571-272-1511. The examiner can normally be reached on 10:00 a.m. to 6:30 p.m., Mondays to Fridays.

* Note that though a terminal disclaimer may be requested to be held in abeyance, a response to a rejection cannot.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Carol Chaney can be reached on 571-272-1284. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
